

We can line anything.
Metal Finishing

When it comes to providing answers for lining needs in the metal finishing industry, Witt Lining Systems has the solution. Our flexible PVC liners can be used in process tanks, storage tanks, secondary containment, or wherever liquid containment or corrosion protection is demanded.

We know your containment issues. Anodizing, plating, galvanizing and other metal cleaning and treatment operations all require proven lining systems. Our experience and expertise enable us to offer custom answers for every possible lining need in the finishing industry. With over 45 years of experience, we have the answers to a wide range of special projects. We have successfully helped hundreds of companies like yours solve their lining challenges.

Why choose Witt Lining Systems?

- Made in one piece for easy installation.
- No extensive preparation work needed and no cure time.
- Exclusive formulations to handle any application.
- Custom fabricated to any size, shape, or configuration.
- Maintenance free – does not flake, peel, or chip.
- Liquid integrity not affected by cracks or holes in the substrate.
- Easy to repair if damaged.
- Emergency fabrication service available.
- Network of qualified installers for difficult or large projects.

Witt Lining Systems... the best choice for you!

- 45+ years of commitment to industrial lining solutions
- Dedicated to industrial liners only – no ponds, lagoons, pools, etc.
- Innovative product ideas and fabrication techniques
- Honored by US Dept. of Commerce
